## "THE SENTINEL'S" PLATFORM.

No single member of the council will be permitted to "run" this enterprise to suit himself, or to bulldoze the council or the board of water works trustees, nor will he be permitted to gratify his personal malice at the expense of the people. That might just as well be understood now as hereafter.

Good judges are now predicting that TOM EWING's majority in Ohio will reach 25,000.

THAT gifted statesman, D. R. LOCKE, known to fame as "Petroleum V. Nasby," went to Cincinnati the other day, drank too much of his cross roads whiskey, and finally found himself a prisoner at a police station. LOCKE's patriotic soul boiled over with indignation at the outrage, but he has a grand scheme of revenge. He will inflict his new play, "Widow Reddott," upon the unfortunate people of Cincinnati.

THE Louisville Courier-Journal speaks out plainly on the Yazoon country murder:

Such things are not to be tolerated or excused. Men who carry weapons must be punished. Men who use them must not escape the penalties of the law. On the face of this affair there appears the suspicion that BARNES took advantage of DIXON's unpopularity to attack him. The shot-gun is neither a handy nor a gentlemanlike instrument of personal warfare. Its production upon a public street or thoroughfare is an assault upon the whole populace; and, if it be true that BARNES' case is no better than that brought by the telegraph, the attack was wanton and cowardly, bringing the good name of Mississippi into disrepute, and more or less discrediting the courage and honor of southern men everywhere.

The Maine republicans are becoming desperate at their slim chances of carrying the state at the approaching election. They are blackmailing the government employees at Washington for large amounts, in open violation of R. B. HAYES' executive order No. 1, which he promulgated upon taking Mr. TILDEN's office:

"No officer shall be required or permitted to take part in the management of political organizations, caucuses, conventions or election campaigns. Their right to vote and express their views on public questions, either orally or through the press, is not denied, provided it does not interfere with the discharge of their official duties. No officer for political purposes on officers or subordinates should be allowed."

Mr. HAYES, however, has become a stalwart, and is perfectly willing any employee of the government should be blackmailed—except himself.

ROB INGERSOLL, JAMES PARTON and others have called a convention of "liberals" to meet in Cincinnati on the 18th of September, for the purpose of organizing a non-sectarian party. In an interview with the *Sentinel* the object of the party will be "to do away with the ghosts that haunt, the superstitions that control, and all laws that deny civil rights to honest men." He proposes to accomplish his ends by repealing bad laws and making good ones. He says he does not object to the teaching of religion, but he does object to superstition, and to the use of public money for the support of sectarian schools. He would tax church property, \$300,000,000 worth of which now escapes this burden, and he would relieve from taxation all homesteads to the value of \$1,000. He wishes to do away with unjust laws—those which in some states make clergymen ineligible to membership in legislatures, in others disfranchise free thinkers, prohibit them from holding office, and make them incompetent witnesses in courts of justice; laws also which punish a denial of the inspiration of the Bible with fine and imprisonment. He concludes an interview in which the above statements are made, with the following declaration of his purposes:

"For myself, I want to do what I can toward effecting the absolute divorce of church and state, the divorce of church and school, the repeal of all laws discriminating against men on account of religious and irreligious belief, of all laws that exempt the property of churches from taxation, or in any way abridge the freedom of thought. That, in short, is my platform.

If all those who sympathize with the aims which INGERSOLL thus sets forth join his party, the movement to be inaugurated at Cincinnati next month will prove a formidable one.

## THE SAN FRANCISCO TRAGEDY.

Kallock Still Living—The Workmen's Plans—Do Young Help To Answer—Items About the Pacific State Resurrection.

San Francisco, Cal., Aug. 25.—The leaders of the workmen's party held a conference with Kallock's medical attendants to-day to consider the expediency of putting up some other man for mayor. The physicians informed them they saw nothing in the condition of Kallock to render such course necessary, intimating probability of his early recovery. Charles De Young was brought before the police court to-day and waived on examination. He was HELD TO ANSWER.

to the charge of assault with intent to murder without bail. Physicians express the opinion that there is strong probability of Kallock's recovery. Notwithstanding the favorable symptoms there is a good deal of talk among workmen as to the course to be pursued in the event of a fatal termination. Among the rank and file there is a strong desire visible to put up Kearney for mayor, should a change become necessary, but the desire is shared neither by the agitator nor his friends, and it may be considered certain that nothing of the kind will be done. At the police station vigilance has been relaxed during the day, and only a few officers and militiamen are on duty. The workmen's special, sworn in to prevent De Young from being spirited away, are still on duty. The crowd has lingered about the Metropolitan Temple all day. Otherwise there have been no street assemblages except around bulletin boards. The American district telegraph boy, who was with De Young at the time he shot Kallock, was run down down by a *Bulletine* reporter this afternoon. He states that De Young called at the Call office for him and that together they drove to 2,314 Ninth street, and De Young instructed him to ask

MR. KALLOCK TO COME OUT, as a lady in a coupe wanted to see him. Kallock was not at home, and after making inquiries as to his office hours, they drove from his house to the temple, and by peaking through a curtain of the rear window of the coupe, called the boy's attention to a gentleman in a white alter, as Kallock. The boy then told him a lady wished to see him, and Kallock, once came to the coupe, although cautiously, as though anticipating something wrong. When he reached the coupe the shot was fired which frightened the boy so that he ran as fast as he could back to the office. De Young was cool during the ride, and gave no indications of the intention to do anything of the kind.

NOTES.

The workmen in several of the large cities of the Union held meetings Sunday, when De Young was denounced for shooting Kallock. A pacific policy was urged. Kearney in an address Sunday said, "The Chinese must go, and De Young must hang," and further, that "De Young had offered Kallock \$30,000 to come a fusion of the workmen and bills. When the offer was refused, the *Chronicle* began the attack."

The *Alta* and *Call* have editorials denouncing the whole course of the *Chronicle* and the De Youngs toward Kallock. They assert that the *Chronicle* has established a system of espionage on public men for the sake of collecting damaging material that may be used against them if occasion offers, for purposes of blackmail and corruption. They have thus hied wealthy corporations, individuals and officials.

In opening the services Sunday evening, Rev. Samuel Knapp, pastor of a Baptist church in New York, offered a prayer in which he earnestly besought God to spare the life of the Rev. Kallock, and asked that his danger might be a lesson to the clergy not to abandon the field of labor given to them.

KALLOCK.

(Boston Special to the Chicago Times.)

Boston, Mass., Aug. 23.—The murder affair which took place at San Francisco to-day produces a great sensation here, inasmuch as Kallock, the wounded man, passed the most eventful portion of his career in Boston, where his adulteries with female members of his church were so frequent and so unconcealed that his flight from the city was necessary. It is understood that the publication in the San Francisco *Chronicle* yesterday of these facts in Kallock's history was the cause of the trouble.

Isaac S. Kallock was born in Rockland, Me., and was the son of a Baptist minister settled in that town. The first prominent appearance of Isaac in the allegation that he was found occupying the same bed with a young girl some two or three years older than himself. This girl was the same person who, in after years, married Abner Stein, the son of one of Vermont's governors, and who, on the 5th of January, 1857, stopped at the Lechmere House, at Cambridge, Mass., with Kallock. For this latter crime he was

TRIED FOR ADULTERY,

and escaped by a disagreement of the jury. This girl had but a short time before her escape been adopted into the Kallock family, and upon the discovery was sent to Vermont. Isaac was sent to Waterville College to study for the ministry. He was expelled from that institution, and went to preaching in his father's place, who had removed to California. It is alleged that after a short time spent in the pulpit Kallock became

TOO INTIMATE WITH SOME OF THE SISTERS,

and was obliged to vacate. In the early part of 1855 he received a call from Tremont Temple Baptist Church, Boston, and, accepting this, achieved considerable popularity for a couple of years, until this affair with the Stein woman. The reason of the jury's disagreement is given that some three or four of them were Baptists, and by their arguments carried several others with them. Mr. Morse, the

prosecuting attorney for Middlesex county, where the trial was held, secured additional evidence from the conductor of the train on which Mrs. Stein came from Vermont, and also the proprietors of the Quincy House, Boston, to which Kallock took Mrs. Stein before carrying her to Olin bridge, and intended having a second trial, but, owing to the intervention of Kallock's friends, he agreed to discontinue the case if Kallock would agree to

LEAVE THE PULPIT and never again attempt to preach. This was promised, and Kallock went to Kansas and entered into partnership with a lawyer, causing the fact to be announced in the local papers. Upon receiving marked copies of these papers Morse *nolle prosequi* the case. As soon as Kallock was aware of this he returned to Boston and again commenced preaching. He was soon after

DETECTED IN THE ACT of criminal intercourse with a female member of the choir, and soon after severed his connection with the church. He then removed west, and it is alleged, got into trouble on account of a charge of obtaining a piano under false pretenses. This matter was compromised, and Kallock was a candidate for office on a granger ticket, but was defeated. He then

REMOVED TO CALIFORNIA, where he again aspired to political preferment, and, incurring the displeasure of Mike De Young, of the San Francisco *Chronicle*, was shot, as previously stated. During his career in Boston, Kallock had the reputation of being a hard drinker, and many funny stories are told of his adventures while under the influence of intoxicants. During his career in Boston he was a married man, and scandals which he caused while here are still fresh in the mind of the public.

A wretch named Douglas McLean, living near Terre Haute, having a wife and children, enticed his niece into the woods and outraged her in a terrible manner, leaving her alone in a dense swamp, and almost entirely without clothing. ## AN INTERESTING CASE.

An Attempt to Bury a Mason in a Catholic Cemetery Resisted—The Case Gets Into the Courts.

Dennis Coppers, a well-known citizen of Hoboken, N. J., was killed August 14th, on the grounds of ex-Congressman Morgan Jones, his brother-in-law, at Melriches, L. I., by the accidental discharge of a fowling piece.

Coppers had been a prominent Free Mason, and when his remains were taken to Hoboken last Sunday for interment were held by the Masons of that city. The dead man had been a Roman Catholic, and owned a lot of ground in Calvary cemetery, L. I., in which his wife and one child were buried. He had also himself frequently expressed a wish to be buried there, and had signified his wish in his will. When his remains were taken to Calvary cemetery, the authorities there refused to allow them to be buried because the church excluded members of secret societies from consecrated ground. The body was temporarily deposited in the receiving vault.

Upon applying to Vicar General Quinn, Jones was informed that it was an undisputed rule of the Catholic church that no other person than a Catholic should be buried in its consecrated ground, and moreover, Coppers, by his membership in a secret society, had forfeited his right to such burial. The brother of Coppers has obtained from Judge Hickunt an alternative mandamus, directing the authorities of Calvary cemetery to allow the body of Coppers to be buried in the cemetery. It is understood the complainants will claim an absolute title to the plot, and hence have the right to use it as they please for burial purposes.

The defense will be that the dead man was a Mason, and hence not entitled to burial in consecrated ground, and that this condition as well as others is set forth in the deed to the property.

Never promise more than can be done. Dr. Bull's Baltimore Pills have been successfully run on this principle. For sale by all druggists. Price 25 cents.

## Third of Water Works.

(Warsaw National Union.)

What the Fort Wayne papers get through and done with the water works question, their country subscribers ought to hold a jubilee. The water works subject makes very interesting reading for six or eight months, but to keep it up that many years it is probable that to some it is a little monotonous.

## THE SAN FRANCISCO TRAGEDY.

Kallock Still Living—The Workmen's Plans—De Young Held To Answer—Items About The Pacific Slope Sensation.  
San Francisco, Cal., Aug. 25.—The leaders of the workmen's party held a conference with Kallock's medical attendants to-day to consider the expediency of putting up some other man for mayor. The physicians informed them they saw nothing in the condition of Kallock to render such course necessary, intimating probability of his early recovery. Charles De Young was brought before the police court to-day and waived on examination. He was HELD TO ANSWER.

to the charge of assault with intent to murther without bail. Physicians express the opinion that there is strong probability of Kallock's recovery. Notwithstanding the favorable symptoms, there is a good deal of talk among workmen as to the course to be pursued in the event of a fatal termination. Among the rank and file there is a strong desire visible to put up Kearney for mayor, should a change become necessary, but the desire is shared neither by the agitator nor his friends, and it may be considered certain that nothing of the kind will be done. At the police station vigilance has been relaxed during the day, and only a few officers and militiamen are on duty. The workmen's specials, sworn in to prevent De Young from being spirited away, are still on duty. The crowd has lingered about the Metropolitan Temple all day. Otherwise there have been no disturbances.

The American district telegraph boy, who was with De Young at the time he shot Kallock, was run down down by a Bulletin reporter this afternoon. He states that De Young called at the Call office for him and that together they drove to 2,314 Ninth street, and De Young instructed him to ask MR. KALLOCK TO COME OUT, as a lady in a coupe wanted to see him. Kallock was not at home, and after making inquiries as to his office hours, they drove from his home to the temple and by peaking through a curtain of the rear window of the coupe, called the boy's attention to a gentleman in a white ulster, as Kallock. The boy then told him a lady wished to see him, and Kallock at once came to the coupe, although cautiously, as though anticipating something wrong. When he reached the coupe the shot was fired which frightened the boy so that he ran as fast as he could back to the office. De Young was cool during the ride, and gave no indication of the intention to do anything of the kind.

NOTES.

The workmen in several of the large cities of the Union held meetings Sunday, when De Young was denounced for shooting Kallock. A pacific policy was urged.

Kearney in an address Sunday said, "The Chinese must go, and De Young must hang," and further, that "De Young had offered Kallock \$50,000 to cause the fusion of the workingmen's bills. When the offer was refused, the Chronicle began the attack."

The Aha and Call have editorials denouncing the whole course of the Chronicle and the De Youngs toward Kallock. They assert that the Chronicle has established a system of espionage on public men for the sake of collecting damaging material that may be used against them if occasion offers, for purposes of blackmail and corruption. They have thus bled wealthy corporations, individuals and officials.

In opening the services Sunday evening, Rev. Samuel Knapp, pastor of a Baptist Church in New York, offered a prayer in which he earnestly besought God to spare the life of the Rev. Kallock, and asked that his danger might be a lesson to the clergy not to abandon the field of labor given to them.

KALLOCK.  
[Boston Special to the Chicago Times.]  
Boston, Mass., Aug. 25.—The murder of Kallock, which took place at San Francisco to-day produces a great sensation here, inasmuch as Kallock, the wounded man, passed the most eventful portion of his career in Boston, where his adulteries with female members of his church were so frequent and so unconcealed that his flight from the city was necessary. It is understood that the publication in the San Francisco Chronicle yesterday of these facts in Kallock's history was the cause of the trouble.

Isaac S. Kallock was born in Rockland, Me., and was the son of a Baptist minister settled in that town. The first prominent appearance of Isaac in the allegation that he was found occupying the same bed with a young girl some two or three years older than himself. This girl was the same person who, in after years, married Abner Stein, the son of one of Vermont's governors, and who, on the 6th of January, 1857, stopped at the Lechmere House, at Cambridge, Mass., with Kallock. For this latter crime he was

TRIED FOR ADULTERY, and escaped by a disagreement of the jury. This girl had but a short time before her escape been adopted into the Kallock family, and upon the discovery was sent to Vermont. Isaac was sent to Waterville College to study for the ministry. He was expelled from that institution, and went to preaching in his father's place, who had removed to California. It is alleged that after a short time spent in the pulpit Kallock became

TWO INTIMATE WITH SOME OF THE SISTERS, and was obliged to vacate. In the early part of 1855 he received a call from Tremont Temple Baptist Church, Boston, and, accepting this, achieved considerable popularity for a couple of years, until this affair with the Stein woman. The reason of the jury's disagreement is given that some three or four of them were Baptists, and by their arguments carried several others with them. Mr. Morse, the

prosecuting attorney for Middlesex county, where the trial was held, secured additional evidence from the conduct of the affair of which Miss Stein came from Vermont, and she the proprietors of the Quincy House, Boston, to which Kallock took Mrs. Stein before carrying her to Cambridge, and intended having a second trial, but, owing to the intervention of Kallock's friends, he agreed to discontinue the case if Kallock would agree to

LEAVE THE PULPIT and never again attempt to preach. This was promised, and Kallock went to Kansas and entered into partnership with a lawyer, causing the fact to be announced in the local papers. Upon receiving marked copies of these papers Morse wrote to the case. As soon as Kallock was aware of this he returned to Boston and again commenced preaching. He was soon after

DETECTED IN THE ACT of criminal intercourse with a female member of the choir, and soon after severed his connection with the church. He then removed west, and it is alleged, got into trouble on account of a charge of obtaining a piano under false pretences. This matter was compromised, and Kallock was a candidate for office on a granger ticket, but was defeated. He then

REMOVED TO CALIFORNIA, where he again aspired to political preferment, and, incurring the displeasure of Mike De Young, of the San Francisco Chronicle, was shot, as previously stated. During his career in Boston, Kallock had the reputation of being a hard drinker, and many funny stories are told of his adventures while under the influence of intoxicants. During his career in Boston he was a married man, and scandals which he caused while here are still fresh in the mind of the public.

## AN INTERESTING CASE.

An Attempt to Bury a Mason in a Catholic Cemetery Resulted—The Case Gets Into the Courts.

Dennis Coppers, a well-known citizen of Hoboken, N. J., was killed August 14th, on the grounds of ex-Congressman Morgan Jones, his brother-in-law, at Metairie, L. I., by the accidental discharge of a fowling piece.

Coppers had been a prominent Free Mason, and when his remains were taken to Hoboken last Sunday impressive ceremonies were held by the Masons of that city. The dead man had been a Roman Catholic, and owned a lot of ground in Calvary cemetery, L. I., in which his wife and one child were buried. He had also himself frequently expressed a wish to be buried there, and his remains were taken to Calvary cemetery, the authorities there refused to allow them to be buried because the church excluded members of secret societies from consecrated ground. The body was temporarily deposited in the receiving vault.

Upon applying to Vicar General Quinn, Jones was informed that it was an undisputed rule of the Catholic church that no other person than a Catholic should be buried in its consecrated ground, and, moreover, Coppers, by his membership in a secret society, had forfeited his right to such burial. The brother of Coppers has obtained from Judge Hibbard an alternative mandamus, directing the authorities of Calvary cemetery to allow the body of Coppers to be buried in the cemetery. It is understood the complainants will claim an absolute title to the plot, and hence have the right to use it as they please for their proper purpose.

The defense will be that the dead man was a Mason, and hence not entitled to burial in consecrated ground, and that this condition, as well as others is set forth in the deed to the property.

Never promise more than can be done. Dr. Bull's Baltimore Pills have been successfully run on this principle. For sale by all druggists. Price 25 cents.

Tired of Water Works. (Western National Union.)  
What the Fort Wayne papers get through and done with the water works question, their country subscribers ought to hold a jubilee. The water works subject makes very interesting reading for six or eight months, but to keep it up that many years it is probable that to some it is a little monotonous.

## PETOSKEY.

The Immense Crowds Which Have Flocked to Taint Popular Summer Resort.

[Correspondence of the SENTINEL.]

Petoskey, Mich., Aug. 24, 1879.—

The greatest jam of visitors at Petoskey comes with the camp meeting.

Since it closed the Grand Rapids and Indiana Railroad has averaged about 525 passengers per week at this village.

This average will probably be kept up until about the 15th of October.

It is a conceded fact that a greater number of summer visitors has come to Petoskey this than any preceding year.

The Methodist camp grounds, a mile north, with nearly seventy cottages and a hotel, has attracted and entertained a very large number of guests.

The neat and cozy Presbyterian resort, on the north side of the bay, with its several cottages and boarding house, has entertained a very considerable number, and the Lansing resort, on Little Traverse Bay, a short distance further, with its cottages, has also entertained a respectable number.

The Charlevoix summer resort, some sixteen miles southwest of Petoskey, with its neat cottages and popular boarding houses, has entertained a very respectable number of guests, and the hotels, boarding houses and private families of this village, have entertained a very large number.

To this are to be added the numbers continually arriving.

The northwestern shore of Lake Michigan, from the straits of Mackinac, seventy-two miles up the lake, magnificent bays and the adjacent beautiful inland lakes, its varied and beautiful scenery, its pure and transparent waters, its cool, bracing and pleasant atmosphere, and its congenial freedom from all malarial diseases—has attracted thousands of visitors this season.

Nearly all the asthmatic, rheumatic and "hay-fever" sufferers, who try this region of country, find great relief.

The disciples of Isak Walton, the pleasure seekers, and all who are capable of appreciating the wild, weird woodlands of northern Michigan, are highly entertained, interested and pleased with a summer trip to this boreal country.

Those who come to these various resorts are generally persons who were here before, and they have returned with large recruits from their personal friends to whom they had recommended this country.

These summer visitors are generally solid men, business men, and scientific and professional men, who have come with their families—the healthy coming to recruit their faded energies and the invalids to get relief from their ailments. An overwhelming majority of such find what they come for.

A considerable number of the visitors have made arrangements to secure cottages for the coming years, at the various resorts above referred to.

Several men of wealth are building summer cottages in this village.

Very near half the states in the union have made arrangements to send a delegate to represent here this summer, and every man, woman and child turns to his home, and relates to his friends what he has seen and enjoyed, becomes an unconscious, but the very best kind, of an advertiser of the great merits of this region of summer resorts.

These facts go to show that this region of country will continue to grow in public estimation, as a place of summer resort.

Large numbers still remain guests at all these places and will remain up to October.

INDIANIAN.

The "Sentinel's" Snake Story.

[Warsaw Republican.]

And now the Fort Wayne SENTINEL steps to the front with a story of a battle for life between a farmer living in Jackson township, about twelve miles northeast of this city, and a horned snake which measured thirty-four feet and three inches in length. About the only remarkable thing connected with the story is that the snake was killed and the skin sent to Chicago to be stuffed and placed on exhibition. We are beginning to think that they must have some awful poor whiskey in Allen and Adams counties, or very large snakes.

Up in the antiquated village of Fort Wayne, news became scarce last Tuesday, and the Fort Wayne SENTINEL attempted to get up a sensation in the shape of a column and one-half snake story, but it didn't win. Try a dog-fight next time, boys.

[Antiwerp Banner.]

The Ft. Wayne SENTINEL deserves credit for publishing the boss snake story of the season. Even Wood county, the banner snake county of Ohio, can't hold a candle to it. It states that a Mr. Rishel, of Allen county, was pursued by a monster snake across an open field, and he only kept out of its way by running around a reaper. A scythe happened to be near, which he seized, and after fighting it awhile, managed to sever its head from its body. It was 34 feet 8 inches in length, and about as large around as a man's thigh. On each side of its head was a horn, or tentacle, resembling the feelers of a devil fish.

Watch out on the 22nd Sept. to see Prof. Gilbert and Miss Tibers sailing down in their air ships from the Wisconsin State Fair. After their wonderful performances here at the Fair, they glide on to the State Fair at Indianapolis, which is the next week after ours.

Since the composition of one of the most popular proprietary medicines—speak of Dr. F. Wilhoft's Anti-Periodic or Fever and Ague Tonic—has been published and accompanies every bottle, the sales of this great specific for the cure of Chills and Fever, Dumb Chills and hypertrophied spleen have doubled, and the leading physicians prescribe it in their practice when the usual remedies fail. All Druggists sell it.

## FRISCO'S FUSS.

## Interview With a Man Who Knows Kallach and the De Youngs.

## Some Good Words for the "Chronicle" and its Owners.

A SENTINEL reporter had another interview with Silas M. Patterson at the Avenue House this morning. Mr. Patterson is just from San Francisco, and was personally acquainted with Charley and Harry De Young and with Kallach, all brought into prominent notoriety by the startling events in San Francisco during the past few days.

The Chronicle, the paper controlled by the De Youngs, was started by them, and brought from an insignificant programme sheet to the position which it now occupies—namely, the most popular paper printed in the city. Charlie is described as being a fearless as well as a brilliant writer, and furnishes all the brain power for that journal, while Harry has the sole management of the business part of the concern. It is stated that in every campaign in the city all the other papers are on the fence until it is seen what position the Chronicle takes.

Candidates generally have a pretty rugged road to travel if the Chronicle chooses to throw any obstacles in their path, and won be unto the candidate that has a crooked record. If ever in his life he stole a chicken or told a lie, the Chronicle will be sure to find it out and expose it forthwith. The De Youngs were very popular with all classes, growing doubtless from their indomitable pluck in establishing a paper in direct opposition to the wealth and power of the state. The murderous attack on Kallach was probably hardly justifiable, but was the result of extreme provocation, and, although Kallach has all the sympathy of the sane voters, the popular opinion of the city is about evenly divided.

The Arion Society had a rehearsal last night.  
The grand jury meets next Monday.

The committee on police met last night and issued an order to the chief of police permitting the patrolmen to come in to lunch between the hours of 1 p. m. and 2 a. m., to remain twenty minutes and to come in singly leaving one man on each beat all the time.

Miss Mollie Irwin has returned from the east and resumed her old position in the superintendents office.

Indianapolis News: I. D. G. Nelson, of the board of state house commissioners, who has been secretary of the Northern Indiana Agricultural and Horticultural Association for several years, says that this year's exhibition—to begin at Fort Wayne on the 22d of September—will be larger and better in every way than any previous exhibition. Indiana has had bounteous harvests, and the farm, state and county, will all boom this year.

Wabash Courier: Joe Beegan was in the city a few days this week. He had been rolicking along the sandy and breezy shores of Lake Michigan a couple of weeks and stopped off in Wabash on his return home. Fastidious nature has never designed or formed the spot that now has greater attractions for Joseph than Wabash.

Mrs. O. S. Perry fell down stairs yesterday evening at her mother's residence, No. 129 East Lewis street, and was badly bruised.

Fifteen men are employed at the bus barn.

Joe Davis, of Wabash, was in the city to-day.

Harry Neubaum left for Richmond this afternoon.

County Clerk Dent, of Adams county, is in the city.

Cadet Midshipman J. F. Carpenter, of Warsaw, is in town.

Mrs. J. H. Keil and family have returned from Illinois.

Seats for "Humpty Dumpty" can now be secured at Geo. S. Fowler's.

The City Hospital excursion will leave at 7 o'clock to-morrow morning.

Low Vordermark has a thrilling story concerning "Grandfather's clock."

Justice Zollinger will give his decision in the Humbrecht-Young case, next Thursday.

Prof. Wellenstein's benefit concert will take place at the Academy on the 4th of September.

Philip Keintz will play a cornet solo to-night which will be wafted by telephone to Warsaw.

There will be another telephone concert between this point and Warsaw to-night. Lots of fun is anticipated.

The Evangelical Church on the corner of Holman and Clinton streets, is being raised, preparatory to its being turned around.

The police committee will meet some evening this week to investigate Dr. Young's charges against Police-man Humbrecht.

A boy whose name could not be learned fell out of a milk wagon on Jefferson street about noon, sustaining a severe concussion.

Geo. Bowers was fined \$1 and costs for provoking on Ed. Beeks and Martin Maher for being drunk was fined \$1 by the mayor this morning.

Justice Pratt to-day fined Thos. Horn \$2 and costs for an assault and battery upon Wm. C. Broun. All the parties are from Underhill's marble yard.

This time Emma Baker was the prosecuting witness. She generally appears as defendant at police court, but this time she called the turn and jerked up Maggie Connors for stealing her shoes. Squire Ryan dismissed the case.

Hugh Hogan, an employee of the Pittsburgh shops, met with a painful accident last evening, while finishing a pair of dividers on a lathe. The dividers caught his shirt sleeve, stripping it entirely off of his body and inflicting a number of flesh wounds in his arm.

A girl, giving her name as Theresa O'Brien, and claiming DeKalb, O., as her home, came to this city yesterday for the purpose of meeting a knight of the razor named Frank Haywood, who had agreed (as she said) to marry her here. Frank failed to show up, and Theresa concluded to make the best of the situation and hunt for a place as a servant.

Mrs. Richard Barcus, nee Mary Reiter, of Logansport, daughter of Geo. Reiter, of this city, is dangerously ill at Germantown, Pa., near Philadelphia, at which place she has been spending a few months with relatives and friends. Mrs. Barcus was well known in this, the city of her birth and early childhood, and the news of her approaching dissolution will be received with heartfelt sorrow by her many friends in Fort Wayne. She has been gradually wasting away with that dread disease, consumption, until now it is problematical whether she could stand the journey homeward. Her husband left yesterday evening for her bedside.

## THE RAILROADS.

The Wabash pay car left for the west yesterday morning.

Large quantities of tan bark are being shipped on the G. R. & I. Railroad.

One coach filled with excursionists went to Rome City to-day with St. Paul's band.

The work of laying track in the new Pittsburgh yard will probably be commenced next week.

An excursion from points west on the Pittsburgh, consisting of ten cars, went to Michigan City, to-day.

The Terre Haute Narrow Gauge directors met this afternoon at 4 o'clock, and some important business was transacted.

A rattling excursion will be run over the Wabash next Tuesday. More time will be given at Toronto than by any other excursion.

Pat Murray, the popular baggage man on the Grand Rapids, after standing up for eight years, has at last purchased a chair for his car. It is red, blue and all sorts of colors.

The Pennsylvania Railroad Company have just ordered twenty new powerful passenger engines built, with which they expect to make the time between New York and Philadelphia, including stops, at a mile a minute. Their elevated railroad will enable them to run right to their depot at such a speed.

Col. Andrews, of the Wabash, says there is no truth in the reports that the Wabash will run a line of steamers from Toledo to Buffalo, though a private company he thinks would find it profitable to arrange such a line in connection with his road. The Wabash is a dry land institution and it does not propose to take to the water.

St. Louis Railway Register: The Wabash road seems to be bothering Chicago not a little. A month ago the Times and Tribune contained something like this: "Commissioner Fink ordered Gen. Manager Hopkins to restore rates, and he restored them." A week ago one of them said: "Vice President Hopkins ordered Commissioner Fink to give the Wabash a slice of the Omaha business, and he did it at once." In the language of another: "Now, by all the gods at once, what are you going to do about it?"

## MASONIC MUSIC.

To Be Heard in This City on the 16th of September.

Preparations for Laying the Corner Stone of the Temple.

The committee to make arrangements for the laying of the corner stone of the Masonic Temple met last night at the office of James E. Graham to hear the reports of the sub-committees, make final arrangements, and fix the time for the laying of the same. Work on the Temple was reported to be progressing rapidly, and the contractors stated that the foundations would be ready for the laying of the same by the 15th of September, at the farthest. To avoid contingencies, the 16th prox., was decided on as the day for the ceremony.

The committee on invitations was instructed to invite all lodges of Master Masons in the state, also neighboring lodges in Ohio and Michigan, as organizations, while all other lodges and commanderies be invited, but not as organizations. The City Band has been engaged by the home lodges and it is expected that a number of visiting lodges will be accompanied by bands of music.

It will undoubtedly be the largest assemblage of Masons ever held in this city not accepting the funeral of So. D. Bayless and the ceremonies will be very entertaining and impressive.

## BOWERS VS. BOWERS.

Jefferson Township Furnishes a Divorce Suit.

The Mother of Eight Children the Petitioner.

Harriet T. Bowers, of Jefferson township, has petitioned in the superior court for a divorce from her husband, Lewis H. Bowers. She states that she first stood in with Lewis on the 4th of September, 1862, but that on the 14th of last June she was obliged to get up and get, owing to a number of demonstrations on the part of Lewis which did not exactly coincide with her ideas of marital felicity. In the first place he would thump her on the nose, and to vary the exercise would do the board act with vigorous emphasis. She therefore unceremoniously dug out, and is since a wanderer from his bed and board. Although they have had a number of differences, they have improved the opportunity to multiply on the face of the earth, or words to that effect, and as the fruits of their labor can show up eight healthy children, ranging from three to sixteen years of age, of which she wants the custody, excepting the eldest of the lot. She will pray, and ever pray, etc., ad infinitum.

## AMUSEMENTS.

## "HUMPTY DUMPTY."

Speaking of Tony Denier's star company, which plays at the Academy to-morrow night, the Omaha News says:

Last night the Academy was literally rocked and jammed with the crowd that turned out to greet the Tony Denier troupe. It is safe to say that none went away disappointed. The performance was immense, and the audience praises from the press throughout the country have not been undeserved. The enjoyment of those who filled parquette and dress circle was only equalled by the intense delight of the galleries, both of which were expressed by enthusiastic applause. To-night the performance will be repeated, and we judge more will be present than were there last night, if it were possible to get more in.

## Fair Notes.

The balloon race will be a feature.

John Brown's (dog's) body lies moldering in the grave. Frank Falck did it with an ax.

## FRISCO'S FUSS.

Interview With a Man Who Knows Kallouch and the De Youngs.

Some Good Words for the "Chronicle" and Its Owners.

A SENTINEL reporter had another interview with Silas M. Patterson at the Aveline House this morning. Mr. Patterson is just from San Francisco, and was personally acquainted with Charley and Harry De Young and with Kallouch, all brought into prominent notoriety by the startling events in San Francisco during the past few days.

The Chronicle, the paper controlled by the De Youngs, was started by them, and brought from an insignificant programme sheet to the position which it now occupies—namely, the most popular paper printed in the city. Charlie is described as being a fearless as well as a brilliant writer, and furnishes all the brain power for that journal, while Harry has the sole management of the business part of the concern. It is stated that in every campaign in the city, all the other papers are on the fence until it is seen what position the Chronicle takes.

Candidates generally have a pretty rugged road to travel if the Chronicle chooses to throw any obstacles in their path, and woe be unto the candidate that has a crooked record. If ever in his life he stole a chicken or told a lie, the Chronicle will be sure to find it out and expose it forthwith. The De Youngs were very popular with all classes, growing doubtless from their indomitable pluck in establishing a paper in direct opposition to the wealth and power of the state. The murderous attack on Kallouch was probably hardly justifiable, but was the result of extreme provocation, and, although Kallouch has all the sympathy of the sane lotters, the popular opinion of the city is about evenly divided.

Indiana has had bounteous harvests, and the fairs, state and county, will all boom this year.

Wabash Courier: Joe Beegan was in the city a few days this week. He had been rolling along the sandy and breezy shores of Lake Michigan a couple of weeks and stopped off in Wabash on his return home. This time Emma Baker was the prosecuting witness. She generally appears as defendant at police court, but this time she called the turn and jerked up Maggie Conners for stealing her shoes. Squire Ryan dismissed the case.

Hugh Hogan, an employee of the Pittsburgh shops, met with a painful accident last evening, while finishing a pair of dividers on a lathe. The dividers caught his shirt sleeve, stripping it entirely off of his body and inflicting a number of flesh wounds in his arm.

A girl, giving her name as Theresa O'Brien, and claiming Defiance, O., as her home, came to this city yesterday for the purpose of meeting a knight of the razor named Frank Haywood, who had agreed (as she said) to marry her here. Frank failed to show up, and Theresa concluded to make the best of the situation and hunt for a place as a servant.

Col. Andrews, of the Wabash, says there is no truth in the reports that the Wabash will run a line of steamers from Toledo to Buffalo, though a private company he thinks would find it profitable to arrange such a line in connection with his road. The Wabash is a dry land institution and it does not propose to take to the water.

St. Louis Railway Register: The Wabash road seems to be bothering Chicago not a little. A month ago the Times and Tribune contained something like this: "Com-missioner Fink ordered Gen. Manager Hopkins to restore rates, and he restored them." A week ago one of them said: "Vice President Hopkins ordered Commissioner Fink to give the Wabash a slice of the Omaha business, and he did it at once." In the language of another, "Now, by all the gods at once, what are you going to do about it?"

## MASONIC MUSIC.

To Be Heard in This City on the 16th of September.

Preparations for Laying the Corner Stone of the Temple.

The committee to make arrangements for the laying of the corner stone of the Masonic Temple met last night at the office of James E. Graham to hear the reports of the sub-committees, make final arrangements, and fix the time for the laying of the same. Work on the Temple was reported to be progressing rapidly, and the contractors stated that the foundations would be ready for the laying of the same by the 12th of September, at the farthest. To avoid contingencies, the 16th prox., was decided on as the day for the ceremony.

The committee on invitations was instructed to invite all lodges of Master Masons in the state, also neighboring lodges in Ohio and Michigan, as organizations, while all other lodges and commanderies be invited, but not as organizations. The City Band has been engaged by the home lodges and it is expected that a number of visiting lodges will be accompanied by bands of music.

It will undoubtedly be the largest assemblage of Masons ever held in this city not accepting the funeral of Sol D. Bayless and the ceremonies will be very entertaining and impressive.

## BOWERS VS. BOWERS.

Jefferson Township Furnishes a Divorce Suit.

The Mother of Eight Children the Petitioner.

Harriet T. Bowers, of Jefferson township, has petitioned in the superior court for a divorce from her husband, Lewis H. Bowers. She states that she first stood in with Lewis on the 4th of September, 1862, but that on the 14th of last June she was obliged to get up and get, owing to a number of demonstrations on the part of Lewis which did not exactly coincide with her idea of marital felicity. In the first place he would thump her on the nose, and to vary the exercise would do the board act with vigorous emphasis. She therefore unceremoniously dug out, and is since a wanderer from his bed and board. Although they have had a number of differences, they have improved the opportunity to multiply on the face of the earth, or words to that effect, and as the fruits of their labor can show up eight healthy children, ranging from three to sixteen years of age, of which she wants the custody, excepting the eldest of the lot. She will pray, and ever pray, etc., ad infinitum.

## AMUSEMENTS.

## "HUMPTY DUMPTY."

Speaking of Tony Denier's star company, which plays at the Academy to-morrow night, the Omaha News says:

Last night the Academy was literally packed and jammed with the crowd that tarried out to greet the best of the best. It is safe to say that none went away disappointed. The performance was impressive, and the audience praises from the press throughout the country have not been undeserved. The enjoyment of those who filled the parquet and dress circle was only equalled by the intense delight of the galleries, both of which were expressed by enthusiastic applause. To-night the performance will be repeated, and we judge more will be present than were there last night, if it were possible to get more in.

## Fair Notes.

Prof. Harvey Gilbert will do the balloon act at the fair.

A large number of persons have already signified their intention of attending the fair, from Indianapolis. The privileges will be sold next Saturday.

The fair this year promises to be the finest ever held in this country.

The entries for the races will show up the best field of horses that ever started on this track.

The railroads will run excursion trains and will bring immense crowds.

The Pittsburgh, Saginaw and Muncie roads have already been billed for the fair.

George S. Fowler, assistant secretary, receives a cart load of letters every day, asking for information, etc.

Work on the new building at the grounds will begin next week.

The balloon race will be a feature.

John Brown's (dog's) body lies moldering in the grave. Frank Falke did it with an ax.

He is a fool. We mean the man who lets his baby cry all night in the arms of its mother, and does not sleep a wink, when Dr. Bull's Baby Syrup will quiet the baby by relieving its pain; a bottle costing only 25 cents.
